PROFESSIONAL SUMMARY

Java Full Stack Developer with hands-on experience designing and deploying scalable REST APIs and responsive web applications using Java, Spring Boot, Spring Security, Hibernate/JPA, MySQL, and React.js. Strong core foundation in Object-Oriented Programming (OOP), Data Structures & Algorithms (DSA), DBMS, and microservice architectures. Proven capability in managing end-to-end software delivery from relational/NoSQL schema modeling to automated build pipelines and cloud deployments.

TECHNICAL SKILLS

- **Programming Languages:** Java (Core & Advanced, Java 17/21), JavaScript (ES6+), TypeScript, Python, C++, C
- **Backend Frameworks:** Spring Boot, Spring Data JPA, Hibernate, Spring Security, RESTful APIs, JWT Authentication
- **Frontend Technologies:** React.js, Redux, TanStack Query, Zustand, HTML5, CSS3, Tailwind CSS, Bootstrap
- **Databases & Storage:** MySQL, MongoDB
- **Cloud & DevOps:** Docker, AWS (EC2, S3, Lambda), Git, GitHub, Apache Maven, Postman, Jira
- **Core Computer Science:** Object-Oriented Programming (OOP), Data Structures & Algorithms (DSA), DBMS, Operating Systems

EXPERIENCE & INTERNSHIPS

AICTE EduSkills | Java Full Stack Developer Virtual Intern Jul 2025 – Sep 2025

- Engineered modular backend services using Java, Spring Boot, Spring Data JPA, and Hibernate with MySQL persistence.
- Implemented secure RESTful endpoints supporting high-throughput CRUD operations across multiple application workflows.
- Automated API validation routines via Postman collections and managed builds using Apache Maven and Git version control.
- Collaborated in bi-weekly Agile sprints, participating in sprint planning, reviews, and tracking deliverables through Jira.

TalentNext (Wipro) | Java Full Stack Developer Trainee Jul 2025 – Oct 2025

- Developed full-stack modules by integrating Spring Boot backend micro-components with React.js single-page interfaces.
- Applied enterprise OOP design patterns, transactional database modeling in MySQL, and secured endpoints using token-based access.
- Built end-to-end integration flows across frontend UI, REST layer, and persistence tiers under industry-standard code reviews.

PROJECTS

TaskGenZ – Modern Workspace Platform | Java 21, Spring Boot, JWT, React, TypeScript, MySQL, MongoDB Nov 2025 – Jan 2026

- Architected a collaboration platform featuring Kanban boards, drag-and-drop workflows, threaded discussions, and analytics.
- Implemented dual-persistence architecture: relational data in MySQL via Spring Data JPA and activity streams in MongoDB.
- Secured API traffic using stateless JWT authentication with role-based access control (RBAC) and strict CORS configurations.
- Configured multi-environment cloud pipelines, deploying the frontend on Vercel and backend on Railway via HTTPS.

College ERP Management System | React.js, Java, Spring Boot, MySQL, MongoDB, REST APIs Aug 2025 – Oct 2025

- Built an end-to-end academic portal managing student/faculty profiles, attendance logging, marks submission, and reporting.
- Engineered secure REST APIs using Spring Boot, reducing response latency through optimized SQL indexing and Mongo aggregation.
- Implemented role-based authentication, dashboard analytics, and real-time database-driven statistics.
- Deployed production-grade services with decoupled client-server architecture hosted on Vercel (frontend) and Render (backend).

BrainBrew – Café Web Application | JavaScript, HTML5, CSS3 May 2025 – Jun 2025

- Built an interactive, mobile-first web storefront featuring dynamic menu filtering, cart state management, and modal dialogs.
- Optimized asset delivery and DOM manipulations, achieving fast load times and clean responsiveness across mobile and desktop devices.

KidsApp – Android Learning Application | Java, Android SDK, XML Jan 2025 – Mar 2025

- Designed an interactive Android educational app featuring gamified learning modules, audio triggers, and intuitive UI components.
- Optimized activity lifecycles and layout hierarchies to maintain zero-lag screen transitions on target devices.

EDUCATION

Master of Computer Applications (MCA) — Galgotias University, Greater Noida 2024 – 2026

Cumulative Grade Point Average (CGPA): 8.55 / 10.0

Bachelor of Computer Applications (BCA) — Global Group of Institutes, Amritsar 2021 – 2024

Cumulative Grade Point Average (CGPA): 8.70 / 10.0

CERTIFICATIONS

- Java Full Stack Developer Virtual Internship – AICTE EduSkills (2025)
- Java Full Stack Developer Training – TalentNext, Wipro (2025)

ACHIEVEMENTS & LEADERSHIP

- 1st Position: Code Debugging Competition, Khalsa College, Amritsar
- 2nd Position: Website Building Competition, Golden Group of Institutes, Gurdaspur
